

ROBIN REPORT

SUGAR CAMP ELEMENTARY NEWS

Happy Friday, Robin! What's on your agenda for the weekend? Whether it's snowshoeing or heading out of town, we hope you have an opportunity to relax. If you're interested in softball, there's a softball open gym in Three Lakes on Sunday. See what else is new below, and [let us know](#) if you have any questions.

Lil' Libraries Project Coming to SC

We've got some very cool news to share with you: Coming to Sugar Camp this summer is a Little Libraries project, which means you'll soon see little free libraries set up around the community. The sixth graders are the first step of the project. They've created models of the little libraries using Tinkercad. Next up is the building phase of the project along with a book drive, which we'll announce a little later. Stay tuned for more!

We're 100 Days Smarter!

Congrats, everyone! You've made it through 100 days of the 2019-20 school year. Students in grades K-4 celebrated on Friday, Feb. 7 with an afternoon full of 100-themed activities. From building with 100 cups to making art projects out of the number 100 and more, the students had fun with the idea that they are now 100 days smarter than they were at the start of the year. Child Development Day Success

It was a busy day over at Three Lakes Elementary last Friday during Child Development Day, which is the annual preschool screening and registration day for Three Lakes School District. We greeted so many new faces, and we're so excited to welcome these youngest Robins into our nest. Can you believe the next 4K class will graduate in 2034?

From the Library Shelf

A mother's love knows no bounds, even when her child is naughty. This week's story, [Mama, Do You Love Me?](#) highlights the deep relationship between an Inuit mother and daughter. Even when the daughter tests her mother's love with an impromptu trip across the Arctic, Mother shows her unending love regardless. Enjoy this endearing story with your loved ones this Valentine's Day!
